WORK BEGINS ON THREE I-293 SOUND WALLS IN MANCHESTER

The New Hampshire Department of Transportation announces clearing work is scheduled to begin this week in Manchester as part of the construction of three wooden sound walls along Interstate 293.

Two of the sound walls will be located on both the north and south sides of I-293 between South Willow Street and Brown Avenue. The third sound wall will be constructed on the north side of I-293 near Huse Road.

R. Zoppo Corp. of Stoughton, Massachusetts is the contractor for the \$3 million project, which is scheduled to be completed in June 2002.
